REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claims are drawn to a novel crystal form of 9-nitrocamptothecin crystallized with acetonitrile. The crystal form has an endotherm between 273.9 and 275.9 degrees Celsius and an exotherm between 279.3 and 281.3 degrees Celsius. The prior art uses acetonitrile as a solvent for an intermediary component but does not use the compound for direct crystallization as recited in the instant claims. The crystals are unique over the prior art for their stability and maintenance of their crystal structure in a pharmaceutical formulation. For these reasons the claims are novel over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Micah-Paul Young whose telephone number is 571-272-0608. The examiner can normally be reached on M-F 7:00-4:30 every other Monday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Hartley can be reached on 571-272-0616. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
